

**Margaret Morris Movement Scotland  
Dance Residential 11th-14th April 2025  
'DANCE-A Picture in Motion'**

In the 1943 Margaret Morris held a summer school in the rural region of Dumfries and Galloway in South West Scotland. In 2025 MMM Scotland will host the 10<sup>th</sup> edition of the dance course at the same location-Kilquhanity. In ' *DANCE- A Picture in Motion* ' we will discover how pioneering Modern Dancer, Margaret Morris approached the creation of choreography with the eye of the visual artist, believing as she did that there was a synergy between the art of dance composition and the approach the painter took when creating with formal elements on the 2-D canvas. We will through our creative movement compositions explore Margaret Morris' philosophy of 'Total Work of Art' as we consider the formal elements of design, form, line, shape and colour and how these inform the overall creation of the dance compositions we create.
